## Christmas Displays in Stores Present Inviting Appearance

Many Interesting Displays in Local Stores for Yuletide Shoppers.

Of course there is going to be Christmas buying, and lots of it! The temptation of yielding to the generous spirit of Christmas cannot be resisted, for there is always the urge of goodwill to arouse the desire in people's hearts to give presents to relatives and friends.

Coleman stores are preparing for the great annual festival. Fine stocks are already on display, and there will be many presents purchased within the next three weeks. Christmas shopping can always be made more

pleasurable for the public and the store people if it is done early. You are assured of better service, a wider choice, and the avoidance of that hurried feeling in making your selections.

The merchants invite you to drop in as early as possible and see the goods. They will gladly set aside articles you decide to purchase, for delivery at your convenience prior to Christmas Day. And there is not a soul but who will make purchases of some kind. The spirit of Christmas is abroad. There are many hearts to be cheered, and now is the time to prepare for your Christmas giving by remembering to do your Christmas shopping early.

HARD TIMES DANCE AT FRANK HAVE YOU ORDERED DEC. 18. GREETING CARDS 7

Mrs. Sherring, secretary of the provincial Red Cross branch at Frank, announces a hard times dance in the Union hall there on the above date, 15th. This method of sending Xmas and prizes will be given for the best greetings is increasingly popular, and (or worse) hard times costumes. Supper will be served, and the admission is one dollar a couple and 25c for extra lady. An invitation is extended to the public. The proceeds will go towards the crippled children's fund.

Orders for personal Greeting Cards, with your name and address printed thereon, will be accepted up till Dec. 15th. This method of sending Xmas greetings is increasingly popular, and the Journal has samples of high grade cards which your friends will be delighted to receive. Prices run from \$2.50 a dozen, with reduction for larger quantities.

### EXAMINATION RESULTS AFTER CHRISTMAS

Principal Hoyle informs The Journal that the monthly exam. results will not be published till after school re-opens following the Christmas holidays.

Antrobus Shoe Store is announcing some special lines for the Christmas season.

Canadian products have the quality and variety to make them ideal for Christmas gifts.

## Welcomed at McGill

On the occasion of his visit to Montreal, Great Britain's Premier, Right Hon. J. Ramsay MacDonald, received the honorary degree of Doctor of Laws at the hands of E. W. Beatty, K.C., Chancellor of McGill University. Mr. MacDonald and Mr. Beatty are seen in the above photograph as they were drawn through the campus of McGill by the enthusiastic students. On the box-seat is Max Ford, the students' cheer-leader.

## Here and There

Thirteen first prizes in apples, one first in pears and four seconds in apples were awarded to Canadian exhibitors at the Imperial Fruit Show recently held at Dingley Hall, Birmingham, England. Eight of the first prizes were won by Nova Scotia growers, five of them by Chas. A. Bentley, of Berwick, N. S.

Four hunters from New York State saw 153 moose during the ten days of October they spent hunting in Albert County, New Brunswick, with headquarters at the camps owned and operated by Guide Charles C. Dixon, of Alma, according to a report made by E. D. Stowell, of Alden, N. Y., who headed the party, in the New Brunswick Government Bureau of Information and Tourist Travel.

Contract for building a \$500,000 bushel grain elevator at Prescott, Ontario, on the St. Lawrence has recently been let by the Canadian Government. Its cost will be about \$3,100,000 and construction must be completed by August 1, 1930. It is hoped it will be ready before the Welland Canal, built at a cost of \$120,000,000 is opened before next year's grain harvest in Western Canada begins.

Official report on employment in Canada states that in October of this year conditions were exceptionally satisfactory. Reports from 7027 employers with staffs totaling 1,089,583 persons, showed employment at 125, based on the average for the calendar year at 100. This is the highest on record for the time of year and compares with 118.8 for October 1, 1928.

World-wide interest is being attracted by the Canadian Pacific plans to include Honolulu as a port of call on westbound voyages of its White Empress fleet, commencing in December. Grant Hall, vice-president of the Railway, stated at Vancouver recently. Though taking these ships a little out of their course to Yokohama, it will still leave them their supremacy as making the fastest run between this continent and the Orient, he added.

Three functions of interest which are expected to attract hundreds of Canadian and American tourists will be staged in Victoria in the next three months. They are the Yuletide Music Festival in December, the Sea Song Festival in January, both held at the Empress Hotel, and the second annual mid-winter golf tournament in February which had so outstanding a success last winter.

The 300 odd inhabitants of Foremost, Alberta, claim it as one of the busiest communities of Western Canada. In the past two years it has shipped more than 3,600,000 bushels of grain, mostly wheat. The town is also progressive in its educational and sports facilities.

Shipments of pilchard oil from the west coast of Vancouver Island are increasing yearly. One vessel recently took 475 tons in bulk destined for Europe, where margarine is still a staple diet. Sometimes whale is used as a substitute for pilchard oil in the manufacture of margarine.

### ST. ALBAN'S CHURCH, COLEMAN

Sunday, Dec. 8, evening 7 p.m.: Sunday school 2:30 p.m.; W. A. meets on Thursday, Dec. 5, 7:30 p.m.

The J.W.A. desire to thank all those who assisted to make their bazaar a success on Saturday last. Mrs. Stevenson of Crow's Nest Lake won the bedspread with No. 29, also the cushion cover with No. 21.

### IMPORTANT NOTICE

Subscribers who at present receive their copies of The Journal through the mail may have them delivered by carrier on Thursday afternoon. Geo. Vincent delivers in West Coleman. Tom and Matt Brennan deliver in central part of town and Carbondale. Copies for East Coleman can be obtained at Ferby's store. McBurney's drug store also has copies on sale.

All subscribers whose subscriptions are due are reminded that settlements must be made by the end of the year. Statements have been sent out during the year. To ensure regular delivery through the mail this should be attended to.

Persons requiring house delivery notify the delivery boys or send word to The Journal office, telephone 290.

### EVERYBODY ENJOYED "GOLD DIGGERS OF BROADWAY"

A lively musical extravaganza was the play "Gold Diggers of Broadway," shown at the Palace Friday and Saturday. One felt better for having seen it. Its bright tuneful melodies, in solo and chorus, left a pleasing, haunting memory strumming through one's mind, while the color reproduction of the gorgeous costumes aroused profound admiration. Nancy Welford taking the leading part of Jerry, is a new face to movie fans, and immediately captured the hearts of the audience. Winnie Lightner, who played the part of Blaine, the hard-boiled comedienne, is a character artist of exceptional merit, her singing of the song "Keeping the Wolf from the Door" being extremely realistic. Nick Lucas in "Painting the Clouds With Sunshine" and "Tulips," accompanying his songs on the guitar, was very appealing, and doubtless had been on the stage in person he would have received many encores. Ann Pennington, though well-known to movie fans, did not have as prominent a part as those who took a more active part in the singing and dancing numbers, but she looked charming as the dancing girl. It was a star cast, though older-known stars were somewhat cast into the shade by the high-class singers and dancers.

### St. Alban's Makes Christmas Appeal

Asks All Church People to Help Discharge Current Liabilities by End of Year

The vestry particularly request that all members make a special effort to help the church funds by donations, envelope payments, etc., before the close of December. \$300 is needed by Dec. 31 to cover current liabilities for the year, and if every member does his best towards this, it will meet the liabilities in full. The above amount includes stipend fund, assessment fund, sinking fund and sundry expenses.

### PLAYING SCHEDULE, CROWS NEST PASS HOCKEY LEAGUE Season 1929-1930.

1929.  
Dec. 13—Coleman at Blairmore.  
Dec. 16—Bellevue at Coleman.  
Dec. 17—Hillcrest at Lethbridge.  
Dec. 20—Hillcrest at Blairmore.  
Dec. 23—Hillcrest at Bellevue.  
Dec. 25—Blairmore at Bellevue.  
Dec. 25—Lethbridge at Coleman.  
Dec. 27—Blairmore at Hillcrest.  
1930.  
Jan. 1—Coleman at Lethbridge.  
Jan. 1—Bellevue at Hillcrest.  
Jan. 4—Bellevue at Lethbridge.  
Jan. 6—Blairmore at Coleman.  
Jan. 8—Lethbridge at Bellevue.  
Jan. 10—Coleman at Hillcrest.  
Jan. 14—Blairmore at Lethbridge.  
Jan. 14—Coleman at Bellevue.  
Jan. 15—Lethbridge at Hillcrest.  
Jan. 17—Bellevue at Blairmore.  
Jan. 20—Hillcrest at Coleman.  
Jan. 22—Lethbridge at Blairmore.

Note—Game scheduled for Dec. 25, Blairmore at Bellevue, is subject to change.

### AN INCONSIDERATE STOMACH

A Scotsman secured employment in a Canadian bank at \$600 a year. At the end of the year the officers noting his personal account stood at \$800 asked him to explain his prosperity.

"When I left Scotland," he said, "my father gave me clothes to do me a year, and when I came to the bank here I got a job looking after a baker's books at night and he did not charge me rent for my room. I was above the ovens and I did not have to get a stove or use any fuel. There is a street lamp outside my window and I did all my reading by that, and if it had not been for the inconsiderateness of my stomach I would have had the whole \$600 to my credit."

The happiness of the Christmas season largely depends on individual and national prosperity.

When times are prosperous, the flow of good cheer reaches maximum proportions.

Conversely, when times are bad, there is less happiness abroad at Christmas time.

The basis of prosperity is plentiful and regular employment at good wages.

Therefore, to maintain employment and consequent prosperity, we must buy the products of home industry.

At no time of the year should this principle be more in evidence than at Christmas.

## Miners Will Hear Federal Member on Monday Night

G. G. COOTE, M.P., TO ADDRESS PASS MEETINGS

Through the instrumentality of the Pass locals of the Mine Workers of Canada, it has been arranged that public meetings will be held at Bellevue, Coleman, Blairmore on the nights of Dec. 9th, 10th and 11th respectively, to be addressed by G. G. Coote, M.P., and others.

At these meetings Mr. Coote will deal with matters affecting this part of his constituency and will outline the result of his representation at Ottawa and matters in general as being handled at the federal headquarters of administration.

The public are asked to bear these meetings in mind and to turn out every one to hear their representative.

Here's a good advertisement which was taken from an exchange. An editor and a merchant were discussing the virtue of bill-board advertising.

The merchant contended that more people read the bill-board than the newspaper. After a lengthy conversation in which neither man would give in, the men parted. The next week the merchant came tearing down to the newspaper office wanting to know why the obituary of his wife's mother was not in the paper, especially after he had seen the copy was taken to the newspaper office. "Well," said the editor, "I knew you wanted the obituary read by the people so I took it out and nailed it on the bill-board."—"Think it over!"—Ex.

### 20-YEARS-AGO ITEM IN LETHBRIDGE HERALD

At a meeting of Coleman ratepayers held last night by a vote of 44 to 5 it was decided to have the village incorporated into a town. The village council is now authorized to proceed immediately with the necessary steps to bring about the incorporation. Slav town supported incorporation enthusiastically.

## The Mounting Toll of Accidents

"The problem now is to speed up the adjustment of humanity so that it will keep pace with the rapidly increasing development of machinery."

In these words a writer in a recent United States health publication concludes an article dealing at some length with the steady and alarming increase in the number of deaths resulting from accidents. Illustrative of this need for the whole human family to adjust itself to this changing age, it is pointed out that whereas adults rarely are the victims of fatal scalding in the home, this type of accident is not at all uncommon among children who have not learned to adjust themselves to the ordinary habits of domestic civilization.

While most public attention centres around the automobile, because from it result more accidental deaths than from any other one thing, and because accidental deaths associated with the automobile have increased so rapidly during recent years, this emphasis tends to overshadow all other hazards and may lead parents to feel that children are perfectly safe when out of the streets and in the home. As a matter of fact, the writer in question points out, the mortality toll from other accidents is more than double that from automobiles.

Indicating the enormous death toll from accidents, figures are quoted showing that in the single state of Illinois, last year, there were more deaths from accidents than the combined Union and Confederate armies lost in the bloody battle of Gettysburg, in the Civil War. Further, that in the last seven years accidents in that one State accounted for more deaths than the United States lost in soldiers "killed in action" in the Great War.

Coming nearer home, we learn from figures compiled by the Provincial Fire Commissioner for Saskatchewan, and extensively published in the weekly press of this Province, that during the first nine months of this year more persons lost their lives through the improper and careless use of gasoline and coal oil than occurred from similar causes in any complete year for five or six years past.

All of which only serves to reinforce the opinion expressed in the article from which we have quoted that "practically all accidents happen because the people involved are out of tune with their environment. Sometimes the consequences are fatal to the person who is out of tune, and sometimes they are fatal to innocent people." In regard to traffic accidents the view is expressed that the people are under control "just as soon as people generally learn to adapt themselves to the new machine age."

Too much emphasis, perhaps, is laid on the need for more prohibitive legislation and more stringent regulations, and too little upon the education of the people, and especially children, in the exercise of care and plain common sense. Governmental and municipal enactments and regulations there must be, but it has been amply demonstrated that speed limits alone will not stop reckless driving of motor cars, "stop" signs will not prevent level crossing accidents, the label "Poison" does not deter a young child from drinking a harmful drug carefully left within its reach, while matches and loaded firearms lying around still have an irresistible attraction for all youngsters.

The whole country is crying out for more good roads, hard-surfaced, all-weather highways. No doubt they are an economic necessity and should be provided to the extent that the community can afford to pay for their construction and continued maintenance. But, until the human family reconstructs itself to this new age, every additional mile of good road likewise adds to the accident and death toll because people regard them as an additional incentive to "speed up" and take risks they would not dare to take on an unimproved highway. Statistics prove conclusively that more accidents occur on the better roads than on the inferior and very poor ones.

Not restrictive laws and regulations, nor more hard-surfaced highways, nor more safety devices on and about machinery, good and desirable as they are, constitute the best protection against accidents and avoidable death. Real and the most effective protection rests with the individual human element. Adjustment to the age in which we live must be speeded up if this toll and terrible economic loss of the mounting death toll from accidents is to be removed from our present-day civilization.

### China Bars Alien Accountants

Law Courts Will Not Recognize Documents Signed By Them

Foreign accountants will not be permitted to practice in China, according to a recent announcement made by the Ministry of Industry, Commerce and Labor, of the National government. Though they are allowed to carry on the profession within the limits of the foreign concession, it will not help them much, because no documents or accounts bearing their signatures will be recognized by the Chinese judiciary, if their cases are brought before the Chinese courts.

### Would Be Good Advertising

Western Provinces May Erect Buildings At Exhibition Grounds, Toronto

The Provincial Governments, Board of Trade, service clubs, and other organizations in Manitoba, Saskatchewan and Alberta already have agreed to the plans outlined by the representatives of the Canadian National Exhibition, and it is expected that, within the course of a year or two, the western provinces, not to mention those of the East, will follow the lead of Ontario, and erect buildings of their own at Toronto, Alberta proposes not to wait for the erection of a provincial building, but already has under consideration the erection at Exhibition Park of a duplicate, in size and in all other respects, of the famous E. P. Ranch House of the Prince of Wales.

He: "If we get married do you suppose we could get credit at the grocer's?"  
She: "I'm not sure about that, but I know all the milkmen."

Minard's Liniment for Discomfort.

### Grain Act Being Rewritten

When Completed Meetings Will Be Held To Receive Suggestions

Steady progress was being made in rewriting the Canada grain act, E. D. Ramsey, chairman of the Board of Grain Commissioners stated in Winnipeg. As soon as it is completed a series of meetings will be held in Montreal, Toronto and at one or more points in each of the prairie provinces. Suggestions will be received with the expectation that a bill satisfactory to those most interested can be ready for the opening of the Dominion Parliament. The act is being rewritten by Col. O. M. Biggar, in Ottawa. So many changes were made in the act last session, that it was believed better to have the whole act re-drafted. No radical changes in principle are being inserted in the bill. The House of Commons went very thoroughly into that last spring.

The changes made in the act preventing mixing in the statutory grades had not had much effect this year because the crop did not lend itself to mixing even if there had been time to do so. The act, Ramsey said, almost 90 per cent. of the wheat crop was inside statutory grades and 80 per cent. over one number two.

## RHEUMATIC PAINS

Cannot Be Rubbed Out — the Trouble Must Be Treated Through the Blood

The pain of rheumatism is something that you cannot rub out. Every sufferer from rheumatism has been advised to rub this or that liniment or oil on the affected part, but after all the rubbing the pain remained. Thin blood and rheumatism come together and if they are properly treated will go together. Anemia means thin blood and thin blood means something that can be corrected, so why not build up the blood until the rheumatic poisons are washed out? This is exactly what is done in the treatment of rheumatism with Dr. Williams' Pink Pills. Rheumatism in any form shows improvement as the thin blood is built up, and when the poisons in the blood are washed out and driven out rheumatism disappears and does not return so long as the blood is kept rich and red. The great value of Dr. Williams' Pink Pills in the treatment of rheumatism is proved by the case of Mr. Thomas Martin, of Nova Scotia, who says: "For some years I was so badly troubled with rheumatism that I could hardly walk, and suffered great pain. I had medical treatment but did not get much relief. Then I decided to try Dr. Williams' Pink Pills and after taking the pills for some time the trouble disappeared and has not since shown the least sign of returning."

You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Humbug in Politics

Philosophical Remarks Accredited To the Late "Tay Pay" O'Connor

Looking back over a long and active career "Tay Pay" O'Connor in his 81st year, made this observation from the wheel chair in his London apartment: When a man gets to be as old as I am he realizes that there is a lot of humbug in politics; that often whole situations would have been changed if there had been enough jobs to go around."

The philosopher who reaches that stage of life when he has nothing to fear finds politics an unchanged art, its practitioners must not dare to try any country and its comedy amusing except when it is freighted with tragedy for the innocent.—New York Sun.

Wise mothers who know the virtues of Mother Gruver's Worm Expeller always have it at hand, because it proves its value.

More than 23,000 persons were reported as missing to the New York police department last year, and 97 per cent. were located.

## PALPITATION

Throbbing of Heart After the "Flu"

Mrs. J. Cunningham, Sault Ste. Marie, Ont., writes:—"Last February I had a severe attack of influenza which left me with palpitation and throbbing of the heart."

"I felt very weak and tired so began to take

and used about six boxes and have found them help me a great deal, and am very thankful for having found such a good medicine."  
Price, 50c. a box and all druggists and dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## CONSTIPATION

RELIEVED QUICKLY  
CARTER'S LIVER PILLS  
will move the bowels without any pain and depressing after-effects. Sick Headaches, Indigestion, Bilelessness and Bad Complexion quickly relieved. These pills can be easily swallowed. Dr. Carter's tiny, sugar coated pills. They are free from calomel and poisonous drugs. All Druggists 25c and 75c red packages.

## Women Are Making Progress As Aviators

Have Yet To Be Proved Man's Equal As Pilot

The Toronto Telegram in its weekly feature "With the Flyers" takes up the question of women. It was long ago agreed that women make good skyriders that like the clean thrill of flying and their nerve is about as steady as a man's, but whether they will prove equal to a man as a pilot, remains to be seen. They might, for once-upon-a-time men scoffed at the thought of women driving a car. Most men still declare that women are wash-outs as motorists. But there are lots of poor drivers amongst men and lots of experts among women.

About the only place women seem to be failing to make headway, is on the b's ships. They are not obtaining the training necessary to vie with men on the established run of the big transporting companies. Perhaps the males, if they are apprehensive of the march of women-of-wings, can take comfort out of that. It is not likely that women will ever fly as fast as the large passenger and freight carriers.

Air transport lines report a steadily increasing patronage among women the world over. Aircraft dealers are using women to promote air-mindedness amongst others of their sex.

The only place in aviation where women can't enter fortunately or unfortunately, according to your point of view, are the army and navy flying schools, which up to now, at least, can be said to be more or less closed to women. But every civil flying school in the world is glad to train women; countless women are learning to fly faster, and even the Federal Government, the national, the airports governing body of the world, has decided in Copenhagen to create a separate category for women flyers. So they are not only recognized as a factor, but one of ever growing importance.

### A Museum For Children

New Haven, Conn., now has a museum exclusively for children. The museum is a branch of the Peabody Museum, of Yale University, and is stocked with objects of particular interest to children. Educators have commended the project.

Useful In Camp. — Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Electric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub the oil on the feet and legs. The result will be the prevention of pain in the muscles, and should it hurt, or come from a sprain, the oil will do nothing could be better as a dressing or lotion.

### Recipes For This Week

(By Betty Barclay)

#### MACEDOINE OF FRUIT

(Serves 6)

- 1 cup diced pineapple.
- ½ cup grapefruit cut in pieces.
- ½ cup apple cut in pieces.
- ½ cup orange sections.
- ½ cup confectioner's sugar.
- Orange Ice.

Combine the fruits and add sugar. Mix and chill thoroughly. When ready to serve put some of the fruit and syrup in an individual serving dish and place on it a ball of orange ice.

#### PLUM PUDDING

- 1 package chocolate junket.
- 1 pint milk.
- ½ cup raisins.
- ½ cup currants.
- ½ cup figs.
- 1 cup water.
- ¼ cup sugar.
- 1 tablespoon lemon juice.
- ¼ teaspoon cinnamon.
- 1 teaspoon clove.

Cut raisins, dates and figs in small pieces; add water and cook slowly until tender. Add sugar and boil until thick. Add lemon juice. Cool slightly; place in bottoms of individual dessert glasses. Warm the milk until trifling more than lukewarm—not hot—remove from stove, and dissolve in it the chocolate junket. Add spices; pour over fruit, and let stand in a warm room until firm. Chill before serving. Top with whipped cream and marshmallow cherry.

### Radio Roads Across Sea

New Development Would Upset Science and Art Of Navigation

Remarkable claims are made on behalf of the new radio development perfected by M. Lott, and just announced to the French Academy of Sciences. He proposes, by means of radio towers on the European and American Atlantic coast, and electric waves transmitted across the sea, to guide ships and planes surely and safely between the two distant continents. In this way he hopes to supersede the necessity of charts and compasses, navigators and pilots. Their place will be taken by radio operators and interpreters, who will send the guiding beams from shore to shore and interpret them when they are receiving. The appointed routes will be changed as circumstances require, and in accordance with traffic and weather conditions as these are gauged by a skilled pilot on land.

These proposals have created a sensation in Europe where announcements have already been made that the first four radio towers will be erected within two years. Similar devices have already been tried on a smaller scale and proved effective for the direction of aircraft. Radio roads across the sea are a possibility and a probability. They would upset the science and art of navigation, first developed by the Phoenician traders thousands of years ago and not materially modified since their time. This is another startling and unforeseen consequence of the arrival of the vacuum tube, an English discovery, by the way, whose glowing filament is becoming the master magician of our age.

### A Mixed Farming Country

Saskatchewan Increasing Dairy and Poultry Output

While the fame of the Province of Saskatchewan rests principally on the fact that within its boundaries more than half of the wheat grown in all Canada is produced, it is also a very important dairying and mixed farming country. The province supplies a substantial quantity of butter for the bread it produces. In October of this year its output of creamy butter was 1,191,500 pounds, an increase of 400,928 pounds or 50.7 per cent. over the production in the corresponding month last year. Saskatchewan is also an important factor in the egg and poultry market. Many a prize turkey that graces the dinner table in homes in Eastern Canada and the United States at Thanksgiving and Christmas is the product of Saskatchewan. Practically all the eggs and poultry from the farms of the province are marketed by the Saskatchewan Egg and Poultry Pool, the directors of which are all women, farmers' wives, except one mere man.

### Shops On Atlantic Liner

Fully Equipped Store Now Accommodates Passengers On "Aquitania"

An innovation on the British Atlantic liner "Aquitania" takes the shape of a tailor's, hosiery, and general shopping center. Until now the barber, the shoemaker, the tailor, the place on board ship where many "side-line" beyond those belonging to the barber's trade might be found. Now there is installed on the "Aquitania" a fully equipped West End store, in which the traveller in one direction can find himself out for his tour in Europe, and they who have been too hurried to give time to clothes can replenish their wardrobes before returning. The mayor of Southampton was the first customer and bought two neckties. One of these he sent as a present to the Mayor of New York with the message, "We are sending you a bit of Regent Street."

Persian Balm creates lovely complexion. Velvety smooth. Cools and relieves the skin. Makes it delightfully soft-textured. Alluringly fragrant. Delightful to use. Swiftly absorbed by the tissues, imparting that elusive charm so distinctive of the dainty woman. Persian Balm protects the delicate skin. Preserves and enhances the loveliest complexion. Every discerning woman should use this skin lotion. It is unrivalled as a flawless aid to beauty.

### New Kind Of Bait

The finger of an old kid glove is great fishing bait, in the opinion of Charles Selbio, Amsterdam, N.Y. Twenty-three black bass, on display at the local sports store, were taken in one day from Schenck Creek by this method, according to Selbio. They average two and one pounds and were more than eleven inches long.

Sanitized Judge (to enraged attorney): "Silence! I fine you five dollars for contempt of court."

Enraged Attorney (planting down \$20 bill): "Five dollars doesn't begin to express my contempt for this court."

### Invents Weather Control

French Engineer Claims His Device Will Avoid Storms

The weather of the Atlantic coast may be controlled by radio. M. William Lott, a French engineer, has perfected a radio control which he claims will make it possible for an inexperienced aviator to pilot his plane from Paris to New York without fear of running into bad weather. Similarly, ships could be navigated by sailors with no knowledge of compasses, sextants or weather maps.

Radio light beams form the secret of Lott's weather control, which has just been shown to the French Academy of Science. Through two land stations transmitting his weather radio waves, which are similar in principle to the Herivel waves, Lott says he can direct a ship or an aeroplane so that all bad weather can be avoided.

### Wide Use Of Combines

In 1928, states the Department of Agriculture, combines were used in Western Canada to harvest wheat, oats, barley, spring rye, fall rye, flax, sweet clover, and brome, from Winnipeg to the foot-hills of the Rockies and from the International Boundary to Township 80 in the Peace River district. The number used in 1929 showed a large increase over 1928.

The water is so clear in the fjords of Norway that objects an inch and a half in diameter can be seen distinctly at a depth of 150 feet.

## He Asked Them Does It Pay To Clip Cows?

A CERTAIN farmer wanted to know about clipping cows. He wrote for names of those clipping cows. He wrote them. Now he himself is so pleased with the Stewart clipping machine he sent in the letters which made him decide the clipping machine is a good investment. Here are some of them.

"I've short of help clipping reduces time necessary to clip clean—and must say using the machine have not had any trouble with lice."

Jordan. "Before we clipped our cows we had a high bacteria count. As soon as we clipped them we had a very low bacteria count. This improving the quality of our milk."

Whitby. "And it certainly is a wonderful help in reducing lice."

Gadshill. "We find it much easier to keep them clean and free from vermin when clipped. To have clean milk you must have clean cows. We raise quite a number of heifers every year and in that way we always have a number of cows to sell. The clipping so improves the appearance of the cows that I think it must add \$5 or 10 dollars to the value of an animal."

**HOW TO CLIP COWS**  
Nature, the principal source of bacteria, cannot collect and it is half an inch under the skin and tail is kept clipped short all winter. Lice seem to congregate along the spine, which causes very sore farmers clip a six-inch width from tail to ears. Farmers who have warm stables and drinking water inside, usually clip their cows all over in the fall.

Buy a clipping machine and make more money from your cows—with less wear on your arms. Stewart No. 1 Clipping Machine is easy to use. An average cow clip with it. Strong, sturdy, easy to use. Add \$5 or 10 dollars. At your dealer, \$15.00. Satisfaction or money refunded.

## BANKING ON NON-PROFIT BASIS IS PLAN OF FARMERS

Saskatoon, Sask. — Co-operative banking on a non-profit basis is hailed as the next step in monetary reform by an inter-provincial farm organization committee which concluded sessions here.

The committee members were representatives of farm organizations in Manitoba, Alberta, and Saskatchewan. John Arnett, of Roblin, Man., A. F. Atken, of Moyerston, Alta., and George F. Stirling, of Saskatoon, Sask. The meeting was held in the central offices of the United Farmers of Canada, Saskatchewan section here.

The object of the conference was to lay the foundation for co-ordination of educational work of the three farm organizations of the prairie provinces regarding monetary reform.

A summary of reports from students of monetary reform holding different views were read, after which the committee considered three different viewpoints of procedure:

1. To seek to amend the present banking system.
2. To ignore the present system and concentrate on the establishment of an entirely different system.
3. To seek by amendment to get what benefits possible from the present system through the development of co-operative banking, at the same time keeping in view the change of the present monetary system so that consumption of goods can keep pace with the fullest possible production.

The committee was of the opinion that the latter suggestion should be the basis of educational work.

## Rolled Oats Mills Complain

Say Competition From United States Is Affecting Business Here

Calgary. — Rolled oats mills in Western Canada which invariably at this time of year have been running 24 hours a day, are closed down or are operating on part time as a result of the flooding of the Canadian market with rolled oats manufactured in the United States. Mills in Calgary, Moose Jaw, Winnipeg and Saskatoon are thus affected.

It is not a matter of dumping, so Canadian millers state; it is a matter of competition. Oats are so much lower in price in the States that the American millers can manufacture rolled oats, pay the duty of 60 cents per 80-pound sack, pay the freight and handling charges, and then underbid the Canadian millers.

The latter have submitted the matter to the federal government at Ottawa, but have been informed that nothing can be done until after parliament meets.

## Royal Winter Fair

Toronto Show One Of The Most Successful Ever Held  
Toronto. — The close of the Royal Winter Fair concluded one of the most successful affairs in the history of the exposition.

Ontario held premier place in the events of closing day. An impressive display of prize winning livestock, flocks loaded with produce from the farms and the dragons of the scarlet uniformed pageants gave a final burst of color to the fair.

From the points of view of attendance and receipts, high quality of exhibits, particularly in livestock, this fair has never been excelled, said Duncan O. Bull, Brampton, president.

## Racing Against Time

Quebec, Que.—Paul Paquin and De' Lesage, trans-Canada canoeists, who left Vancouver on May 1, hope to complete their long voyage to Halifax, N.S., before the rivers through which they must travel freeze up, and are proceeding as fast as possible to their destination.

Departing Unruly Men  
Toronto.—Regarded as unit for work on Canada's farms on account of conditions, a number of unemployed men who migrated from Great Britain and who have been creating a problem for local immigration officials, will be deported.

## First Airplane Theft

Kansas City, Mo.—Highwaymen of the airlines have appeared here. Two armed men bound and gagged a servicing attendant and flew away in a Curtiss biplane and yellow plane, fueled and ready for a 500-mile flight.

North Carolina is establishing a Hall of Fame of historic trees.

W. N. T. 1914

## Clue To Whereabouts Of Missing Aviators

New Search Will Be Started For Eielson and Borland

New York.—A new search by land and air will be under way for Carl Ben Eielson and Earl Borland, who are lost somewhere in the ice field surrounding North Cape, Siberia. Officials of the Aviation Corporation announced they had received the first definite clue to Eielson's whereabouts since he pushed his plane into a blizzard on Nov. 9, while flying to the rescue of the ice-locked ship Nanuk.

Graham B. Grosvenor received the following telegram from Frank Dorbandt, of Alaska Airways Inc., a subsidiary of the Aviation Corporation, at Teller, Alaska:

"Another dog team arrived from Koluchin and reported seeing smoke in the foothills 38 miles from North Cape. No natives in that district. Probably Eielson. Unfavorable weather and shortage of dog teams made immediate search impossible. Returning to search. Russian plane leaving from Providence Bay to seek Eielson."

## Honors Were Divided

Saskatchewan and Manitoba Win With Clydesdales At Royal Fair

Toronto. — Saskatchewan and Manitoba kept the west to the forefront in the Clydesdale classes at the Royal Agricultural Show, each province winning a championship for stallions. The exhibitors from these two provinces won many other awards. University of Saskatchewan's stallion, awarded among other wins, first and fourth for three get-of-sire and two animals progeny of dam. It was Manitoba Day at the fair, and the province celebrated the occasion in appropriate fashion.

Manitoba's great triumph was the victory of Armpur Emigrant, the stallion which was awarded the Carls-Rite and Walker Horse trophy, the finest trophy offered at any Canadian exhibition for the best stallion in the show. This is the second time that this horse, owned by the Reston Horse Syndicate, has won the trophy and the fourth time in the eight years that it has been competed for in Manitoba. Saskatchewan has won it three times and Ontario once.

## Had Miraculous Escape

Shipwrecked Mariner Turns Up Alive After Hope Had Been Abandoned

London, England.—A Maltese fisherman named Attard, supposed to have been drowned when the steamer Molesey was wrecked with the loss of eight lives in a gale two days ago, created a sensation in a hotel at Millford Haven by a sudden appearance. He had remained secluded aboard the wreck until calmer water permitted him to scramble to shore over the great Millford Rock, which rises steeply from the water. His feat was considered a record one.

By chance a retired naval officer in a motor boat spotted Attard on the rock and took him off stiff with cold and almost exhausted.

## Congratulations For Minister Of Finance

Hon. C. Dunning Receives Messages From All Over Dominion

Ottawa, Ont.—Hon. Charles Dunning, Western Canada's first Minister of Finance, has been deluged by a flood of congratulatory messages.

These messages came not only from the West but from every province of the Dominion. The first message he received was from an old friend in Halifax. The early hours this morning brought scores of telegrams from Quebec, Montreal, Toronto, Winnipeg, Regina, Saskatoon, Calgary, Edmonton and Vancouver. There were, in addition, innumerable messages from country points in Saskatchewan.

## Two Killed In Railway Crash

Vancouver, B.C.—D. O. Watkins, of Jasper, engineer on an extra east-bound freight and fireman E. C. F. Bragg, of Edmonton, on a westbound fast freight of the Canadian National Railway, lost their lives as the result of a head-on collision four miles west of Jasper. Two other members of the train crews suffered minor injuries.

## Air Mail Popular

Saskatoon, Sask.—Indicative of the widespread interest in the trans-pacific air mail service, 8,000 letters have been received at the post office here for delivery to the first 'planes leaving this city. The letters are from all parts of Canada, the United States, the British Isles and one packet is from the Bahamas.

## Railway Earnings Less

Small Movement Of Wheat This Year Reflected In Reduced Revenues

Toronto, N.S.—S. J. Hungerford, vice-president of the Canadian National Railway, who is here on a tour of inspection, said that "the wheat situation this year would seriously affect the earnings of railways in Canada. The movement of wheat this year does not exceed 25 per cent. of the movement to this time last year," Mr. Hungerford said, adding that the future of the situation was problematical.

Because elevator space throughout the West and at the head of the Great Lakes is well filled with storage wheat, Mr. Hungerford did not think there would be any considerable shipments for some time. A feature of the 1929 grain transportation, he said, was the movement West via Vancouver. Fully 20 per cent. more wheat has left the country by that route than for the corresponding period in 1928, thus decreasing the tonnage shipped via Atlantic ports of Portland, Me.; Boston, St. John and Halifax.

## HUGE VOLUME OF GRAIN HANDLED BY WHEAT POOL

Winnipeg, Man.—Total handling of 253,102,385 bushels of wheat and 55,694,057 bushels of coarse grains is reported by the Canadian Wheat Pool in the annual report of the board of directors, issued here.

The gross turnover for the year amounted to \$288,097,071, a reduction from the previous year of \$35,000,000, largely accounted for in the carry-over of wheat which on August 31, 1929, amounted to 48,358,585 bushels.

Sales of wheat over the marketing period under review—1928-29—the report states, have been remarkably regular in view of the extreme conditions of the world's markets which had to be contended with. The carry-over was a result of the superabundance of supplies which could not be placed into consumption channels without demoralizing the world market.

Deliveries to country elevators or over platforms in the western inspection division during the year ending July 31 last, were 475,711,628 bushels of wheat, of which 244,248,200 bushels were delivered to the pool, or 51.3 per cent. of the total crop.

Dealing with the export trade the report shows that the Canadian pool shipped 90 per cent. in 19 countries, a total of 108,140,608 bushels, the largest shipment being to the United Kingdom, 34,664,851 bushels.

No announcement of the final payment has yet been made, the report says, in view of the large carry-over on hand from last year. This is the first year that there has been such a carry-over. The only alternative was to have sold the crop at a price level that would have made the investment attractive to the speculator. Such an operation would, the report states, have an effect on new crop price levels which would be disastrous.

"The year as a whole has been one of many perplexities and grave uncertainties," says the report. "The system upon which pool operations are based has, however, withstood every strain placed upon it so far, and has never functioned with more efficiency than in the past year of surplus supplies."

## PROVINCIAL SWINE CLUB WINNERS, 1929

Winners of the Canadian Pacific Swine Club Competitions, photographed prior to their departure for Toronto, where they attended the Royal Winter Fair as guests of the Railway. They are shown above, with their respective provincial trophies and medals. Sitting, left to right: Bert Curry and Vance, Manitoba winners; George Thornton and Robert Hume, Saskatchewan winners; and Stanley Huxford and Harry Naylor, British Columbia winners; William Douglas and Arthur Kriesse, the Alberta winners.

## BRITISH AMBASSADOR

Sir Ronald Lindsay, permanent under-secretary of state for foreign affairs and chief of the English foreign office, who is named as new ambassador for Britain at Washington, succeeding Sir Elme Howard. Copyright, 1929, Pacific and Atlantic Photos, Inc.

## Sees Good Market In Asia

Canada Interested In Prospect Of Increased Exports From U.S.

Washington.—"The greatest potential market in the world," Asia, with its billion inhabitants will not be overlooked in the programs for the stimulation of foreign trade to be inaugurated by the Department of Commerce as part of President Hoover's plan for stabilizing business in the United States. The prospect of increased flow of exports from the United States to China and Japan is interesting from the Canadian viewpoint because commodities such as flour, lumber and autos are shipped through the British Columbia ports. Great Britain, it is pointed out, has been in the Orient for a hundred years and thereby reaps great profit. A Canadian sidelight on the situation in the report from Ottawa of the proposal to establish steamship services from Eastern Canadian ports to India and British East Africa.

## Alberta Old Age Pensions

1,188 Persons In Province Enjoying The Benefits Of Scheme

Edmonton.—When the checks from the Alberta Old Age Pension Board are distributed for the month of November, 1,188 persons will be included on the permanent roll of pensioners and for the four months during which the scheme has been in operation, nearly \$80,000 will have been disbursed among the aged in the province.

At the end of October only 853 persons were enjoying the benefits of the pension scheme but during the past month, 335 permanent pensioners have been added to the rapidly increasing number. The board officers are dealing with an average of 100 applications every week and it is being found that the tendency is one of steady increase rather than abatement.

## Canadian Flying Club Formed

Montreal.—The Aero Club of Canada has been formed here as result of a meeting of the Hangar Club of Montreal, when Col. J. Scott-Williams was elected president. The purpose of the club is to promote interest in flying throughout Canada and to furnish a meeting place for all the officers of the Air Service and for those directly connected with aviation.

## Deny Prison Plot Story

Statement Is Made That Nothing Is Wrong With Saskatchewan Penitentiary

Prince Albert, Sask.—"There is absolutely nothing wrong at the Saskatchewan penitentiary, nor has there been any trouble. We are not attempting to hide anything from the public. I give you my word of honor that all the many rumors concerning the penitentiary which have been circulated have no basis in fact."

This was the emphatic denial made by E. R. Jackson, Ottawa, inspector of penitentiaries in answer to a statement that an attempt to burn down the penitentiary had been frustrated in the nick of time; that wardens had found a pile of oil-soaked rubbish in a portion of the building which would easily take fire.

"I came here about a week ago. I have gone thoroughly into the matter. I found absolutely nothing to indicate a jail break was being plotted. There was no attack upon jail guards, as one rumor held. There was nothing, in a word, to arouse any suspicion that trouble was brewing here."

Mr. Jackson has no conception of how the report was circulated. As a matter of fact he says the building could not be burned as it is constructed of concrete and steel.

## Britain Prepared To Help Settle Trouble

Willing To Join In Attempt To Settle Russo-Chinese Dispute

London, England.—Great Britain is prepared to participate with other powers in joint action to bring the Russo-Chinese dispute in Manchuria to a successful termination if such action proves possible.

Right Hon. Arthur Henderson, foreign secretary, made this reply to a question in the House of Commons. He said he would consider whether Great Britain should take the initiative with the other powers.

Mr. Henderson told Sir Austen Chamberlain, his Conservative predecessor at the foreign office, that communications had passed between the United States and British governments with reference to the possibility of joint action in Manchuria. The question had been discussed in the early days of November.

"I think that since then no further communication has been received, but I think a communication has come through a telegram from another government, and if joint action can be taken we are prepared to participate."

## NEW PLANES ARE PURCHASED FOR AIR MAIL SERVICE

Vancouver.—Purchase by Western Canada Airways, Limited, of six combined mail-passenger 'planes for use on the Winnipeg-Banff air mail service has been announced here.

Three of the mail 'planes, which are required for immediate delivery, will be built in Seattle, while the others will be built in Vancouver.

The type of plane selected by W. L. Brintnell, operations manager of Western Canada Airways, in Winnipeg, has a cabin for four passengers and a mail capacity of 500 pounds. 'Planes of this type have been flown over the Chicago-San Francisco air mail routes in the United States for the past two years.

All 'planes will be equipped for night flying, as it will be necessary for Western Canada Airways pilots to do a large portion of the route at night. A full day will be cut from the trans-continental mail schedule by the service which will start about the middle of December, mail taken off the train at Winnipeg overhauled at the train at Winnipeg leaving the east 24 hours earlier.

Between Winnipeg and Calgary, the 'planes will fly by way of Regina, Moose Jaw and Medicine Hat, while between Regina and Edmonton they will go by way of Saskatoon. Fields with night flying beacons and landing lights are being installed near Medicine Hat, Alderson, Brooks, Bassano, Namanda and Calgary.

The 'planes are powered with 525 horsepower engines, have a high speed of 135 miles per hour and cruise at 115 miles per hour fully loaded. They have a landing speed of 67 miles per hour and climb 800 feet per minute to a service ceiling of 15,100 feet. They carry 140 gallons of gasoline and 30,000 average letters in addition to four passengers.

Post office officials report that Canmore-Vancouver air mail route is now under way, the intention being to open this division during the summer of 1930.

## BRITAIN MUST STUDY OVERSEAS TRADE QUESTION

London, England.—The outstanding weakness in British marketing operations overseas is a detached island attitude and unsentimental practice, according to the report of a committee on the education of salesmen appointed by the late Conservative Government. This condition, the committee finds, is a relic of the time long past when Great Britain enjoyed a virtual monopoly of the world's markets for manufactured goods.

While this committee was investigating the Port of London authorities instituted its own investigation.

The Morning Post in a leading editorial calls attention to a letter received by the port authority from F. MacIntyre Scanders, commissioner of the board of trade of St. John, N.B. "We do not have enough sailings to and from here to London," Commissioner Scanders writes: "Perhaps shipping interests in London are not fully awakened to the importance, the ever growing importance of Canada's ocean traffic."

"So far there has been little personal touch between the Old Country and Canada. When your manufacturers send representatives they rarely send the right type of man to impress the right people. If you people want this market you must go after it. You must be prepared to pay the price. Such a price would prove a wonderful investment and the present moment is probably better than any in the past."

## Millions For Good Roads

Saskatchewan Government Projects Six Main Highways In Province

Regina.—Saskatchewan's government will spend \$5,000,000 to improve highways of the province, according to a program made by Hon. C. A. Stewart, Minister of Highways.

Through this expenditure six main trunk highways would be completed with all-weather surfacing within a few years, according to Mr. Stewart.

At the same time Hon. J. A. McKelvey, provincial secretary, told of plans to make a \$5 cut on every motor vehicle license issued in the province during 1930.

Recovery of motor licenses would amount to \$900,000, as about 120,000 motor vehicles are now in use in the province. At the same time this figure represents an increase of about 10,000 vehicles over last year's total. The government is, however, figuring on an increase in the gasoline tax to five cents. This jump from the present impost of three cents per gallon would mean additional revenue for the province of possibly \$1,000,000.

## No Cause For Worry

Proposal Regarding Canadian Workers In U.S. Not Bothering Ottawa

Ottawa.—The proposal to compel native and non-native Canadians to live in United States while working in that country does not excite any slight apprehensions here. Those closely in touch with the situation point out that such proposals have been broached several times the last few years, but the attitude of the United States Department of Labor has been consistently against any so stringent regulation.

It was explained here that non-native Canadians can only work in U.S. under quota provisions at present and native Canadians are compelled to pay head tax.

## Opening Of Parliament

Indications Would Point To Opening On January 30th

Ottawa.—Preparations for the coming session of parliament are proceeding. As indicated by Premier Mackenzie King, it is the desire to have the session open in good shape so that there will be little delay after the meeting resumes in Ottawa.

Departmental estimates are being prepared and reviewed and the cabinet has given consideration to some of the matters which it is proposed to bring up.

Indications now point to the opening of parliament on Thursday, January 30, or a week later.

## B.C. May Exhibit Poultry

Vancouver.—Representatives of the B.C. Poultry Industry at a meeting here expressed their willingness to prepare an exhibit of 250 birds for the great poultry exhibition to be held in London, England, next July. The exhibit would represent this province's contribution to the Dominion exposition, a proposed exhibit of one thousand birds.

## NOTES AND COMMENTS

Cities report many men unemployed. Railways state that earnings will be down considerably this year because of less haulage. The Wheat Pool is holding wheat back in Canada awaiting a 'more favorable market price. The coal industry needs wider markets to furnish employment to miners. Less men are now required to carry on farming operations because manual labor has been largely superseded by machines. And in face of this the Federal immigration authorities are asking the western provinces to absorb some thousands of Menonites. They have met with a negative attitude by the premiers of Saskatchewan and Alberta. 'Tis surprising that the Hon. Robert Forke, minister of immigration, ever made the suggestion that they should be allowed into Canada.

This is a land of opportunities, but it cannot absorb population faster than capital can be obtained to furnish employment in various enterprises, or markets created to purchase what we produce. Let's take care of what we have without adding to our perplexities by admitting a flood of immigrants which apparently European countries are desirous of being rid of.

Apparently the Ku Klux Klan, or the semblance of an organization masquerading under the name, is not making a hit in Alberta. One R. C. Snelgrove recently held a meeting in Coleman, and in other towns and cities in Alberta. Pickings in Saskatchewan were easier than in this province. Ten dollars a head was obtained to enrol members in Saskatchewan. Posters with a fiery cross, then Snelgrove with a fiery speech, marked his appearance here. Very little has been heard since, though various weekly newspapers report a similar reception to that accorded here. The ground was not ripe here for soliciting ten dollars a head. People are not susceptible to propaganda of the type of Mr. Snelgrove's when they are wrestling with the problem of how to keep the wolf from the door. Beefsteak and bread and butter are of more importance than fiery crosses.

Western Canadians can always be relied on to rally to the support of winter sports. The first real touch of cold weather stimulates their desire for curling, skating and hockey. The youngsters take advantage of frozen ponds and hills for tobogganing. The decided contrast of Canadian summers and winters appears to create virility and a keener appreciation of summer and winter sports.

The skating rink opened for the season on Monday night. In the curling rink there was a meeting at which sufficient players were enrolled to organize eleven rinks, despite business conditions which have been far from "rosy." It is a mighty good thing that people can arouse enthusiasm for winter sports. It is far better to get out on the ice and limber up than sit around wondering what is going to happen next week or next month.

If reports are correct, the Pass towns are to have a visit from their Federal representative, G. G. Coote. Political interest during the past two years has been as dead as the dodo as far as the Crows Nest Pass is concerned. It is a safe bet that 50 per cent of the population do not know who their Federal or Provincial representatives are. This cannot be blamed on the representatives. They cannot visit every man's doorstep. Yet people who take no interest in civic, provincial or federal activities, would make a big fuss if they were not allowed to vote. As it is, they know very little of candidates or policies when an election is held, so it is impossible for them to vote intelligently. Mr. Coote will undoubtedly have something of interest to tell the people and as he is sponsored in this district by the Miners' Union, he should be greeted by a big turn-out.

The path leading up the steep incline to Sixth street is a dangerous place when it is covered with snow and ice, and to add to the risks, some one has stolen some of the wooden rail.

# DON'T DIE in a BEAR MARKET

YOU have seen recessions in the market  
where even good securities could be sold  
only at a terrible loss.

You have seen farm values fall sharply when a  
forced sale brought only a fraction of estimated  
value.

A Bear market is a trying time in which to LIVE.

It's a bad time in which to DIE.

In buying a Sun Life Assurance policy, you face no such fluctuations. You know:

- (1) Exactly what your deposit is, and when payable.
- (2) Exactly what the capital is and the terms of payment.
- (3) Exactly what your cash and loan values are in any year.
- (4) Exactly what are your rights and privileges.

A Sun Life policy holder is protected by:

- (1) Diversified assets—Security  
(nearly \$300,000,000)
- (2) Large surplus funds—Strength  
(nearly \$67,000,000)
- (3) A rigid insurance law—Safety  
(No policy holder has ever lost any part of the face value of his  
policy by failure of a Canadian company).
- (4) World wide operations—Stability.

Protection to the full extent of your policy is established instantly by  
payment of the first premium.

## St. John Ambulance Ass'n Annual Meeting

Presentation to be Made to Dr. Borden for Services as Lecturer

The annual meeting of Coleman branch, St. John Ambulance Association, was held on Dec. 4, when the financial report for the year was submitted by Secretary J. M. Rushton, and passed.

Officers elected were O. E. S. Whiteside and G. Kellock, honorary presidents; R. M. Greenhalgh, president; W. H. Garner, vice-president; J. M. Rushton, secretary; J. Cousins, G. B. Greenhalgh, A. J. Phillips, J. Goulding, N. Fleming, executive committee; R. M. Greenhalgh, W. H. Garner, instructors; Dr. R. P. Borden, lecturer.

The meeting decided that a presentation would be made to Dr. Borden for his three years service as lecturer, during which he has given valuable aid to the classes.

It was also decided that a dance be held during March, for which the executive will set the date.

An important motion by G. D. Greenhalgh and W. H. Garner was passed to the effect that all first year certificates be revoked unless the holders attend for re-examination, and that this resolution be forwarded to the provincial executive.

The branch completes its financial year with a credit balance of \$180.43.

Regular meetings will be held on Sunday afternoons at Central school.

### Injured in Mine

John Semashka, miner at International mine, residing in West Coleman, was admitted to hospital Wednesday afternoon, suffering from injury received in a rock fall on "B" level. The piece of rock fell about ten feet, hitting him across the back.

Hillcrest Caledonian Society held their first annual concert and dance last Friday. Archie McCallum of Coleman was on the program, to give it a true Scottish flavor, also Mrs. R. Holmes, who gave a reading. It was a very enjoyable affair.

Saturday's winners at the K of P whist social were Mrs. S. Patterson, Mrs. Ed Leduc, R. Hill and L. Caroe.

January 13 to 17 are the dates of the annual bospital of the Crown West Pass, to be held in Blairmore.

Mrs. Frank Celli is visiting with friends in Vancouver. Her son Floyd, who had been spending a few weeks there, returned home this week.

WORLD HAPPENINGS  
BRIEFLY TOLD

Quarterly returns indicated that Great Britain's birth would exceed deaths by considerably less than 200,000 this year compared with 400,000 in 1920.

The U.S. National Geographic Society has announced it has granted an additional \$25,000 to Commander Richard E. Byrd for his Antarctic expedition. The society already has granted \$25,000.

An international conference looking toward the regulation of operation of trawlers in the fishing industry off the Canadian coast may be called at Ottawa next year, the Department of Commerce, at Washington, is informed.

Allotment of millions of dollars for construction of new cruisers and submarines will be considered by the U.S. House Appropriations Committee in January, regardless of the naval limitation conference beginning in London, England, that month.

Former Governor Alfred E. Smith of New York, has revealed that the new Empire State building which his company is to erect on the site of the old Waldorf-Astoria hotel, will tower 85 stories into the air, thus soaring higher than any other structure in the world.

Brazil has agreed to accept a large percentage of the German-Russian refugees, some of whom are already in Germany, while others are awaiting opportunity to leave Russia. The peasants will be given refuge in Southern Brazil, where there are a number of German settlements.

Among the candidates whose names have come before the committee which will award the Nobel Peace prize is that of Frank B. Kellogg, former United States secretary of state and co-worker with Foreign Minister Briand in bringing about the famous Kellogg-Briand renunciation of war pact.

The council of the Chinese government has addressed an appeal both to the League of Nations and to individual signatories of the Kellogg-Briand peace pact to take steps to halt and punish the Russian Soviet "invasion" of Chinese territory. The invasion was termed a deliberate violation of the anti-war pact.

## Build Cottages For Britihers

Canadian National Railways Has Plan To Help New Settlers

The problem of housing British immigrant families come to Canada to settle on the land is being met, to some extent at least, by the offer of the Canadian National Railways to build cottages for the Britishers at various points on the prairies so that the new arrivals may secure a home at a nominal rent of three dollars a month. This offer has been approved by the Overseas Settlement Board of the British Government.

British people, forming the bulk of the immigrant tide into Canada, often suffer because they are unprepared to cope with the conditions in the farming districts of the Dominion, which are so different from those prevailing in the Old Country. On the other hand, immigrants from Europe, especially the northern parts of Europe, are accustomed, even before they embark for the voyage overseas, to the solitude and rigours of a life where settlement has left much of the countryside untouched.

The cottages to be built by the Canadian National in the three prairie provinces will stand on a fenced plot of land averaging from one half to one acre in extent. They will be served by good roads and as near as possible to the local market place and school. They will be furnished with stoves and simple furniture.

It is understood that the families will occupy the cottages only during their first year in Canada, while they are obtaining preliminary experience in farming conditions.

There is a good deal in what a great philosopher has said: "The most utterly lost of all days is that in which you have not laughed."

"Why are you in the street in pajamas?"  
Professor: "Wait a minute and let me guess."—Lustige Sachse, Leipzig.

W. N. U. 1814

## Awaiting Deportation

One Hundred Men From British Isles Are Stranded In Toronto

Upward of 100 men brought out from Canada by the British Isles during the summer to work on farms throughout the Dominion are waiting to be deported, the Toronto Telegram says. A good many of them are complaining that they are now without food and without lodging, and are wondering how they are going to live until they get work, or until the Ontario and Dominion governments decide to deport them.

These men were brought to Canada by the St. George Society of Ottawa, the British League of Montreal, the Ontario government and the Dominion government, and placed on farms where they were supposed to be paid \$20 a month minimum, and guaranteed continuous employment, they state, the Telegram says.

They are without any official word from any government authority as to what is going to happen to them.

"The Dominion Government Inspector, C. O. Mitchell said their cases were being considered by him and the Ontario Government authorities.

The Fate Of Those Who Fail To Serve Christ By Serving Others, verses 41-46.—To those on His left hand, the unrighteous, the King will say, "Depart from Me, ye cursed, into the eternal fire, which is prepared for the devil and his angels. The Great word here translated "Hell" is "Gehenna." Gehenna was a field outside the city walls of Jerusalem, to which the garbage and other refuse of the city was carried and burned. For I was hungry, and ye did not give Me to eat; I was thirsty, and ye gave Me no drink. "When" they ask, and receive the answer, "I was much as ye did it not unto one of these least, ye did it not unto Me." There are few things on which the New Testament is more severe in its condemnation than uselessness and self-centered living. The man doing nothing in a world of clamant need is a sin that is pilloried and branded with the utmost condemnation of Christ.—Charles Brown.

How One Failed To Be a Good Samaritan.—"Master, I have been broken no law of the Ten—have hurt no one. Is it enough?" "Child, there stood one by thy side burdened with heavy tasks of lowly, earthly labor. For a little help, a little easing of the burden, he looked to thee. Thou hadst time and strength."

"Master, I did not hear."

"Thine ear was dull. There came a guest to seek thy converse, a human friend in quest of fellowship. I marked they sigh, thy frown. Why was thy heart not kind?"

"I was reading. I hate to be disturbed, to be called from great thoughts to trifling talk with men."

"The children would have thee some few moments in their play. Without thee they went wrong—how far wrong thou wilt know, it is too late."

"Child's play? But I was searching for a hidden truth of spiritual import."

"Thou didst not turn aside to lift that lame one who had fallen by the way."

"I was in haste to do what I had planned. I meant to help him when I should return."

"Another lifted him. Shall I question further?"—Unknown.

I never cut my neighbor's throat; My neighbor's gold I never stole; I never spoiled his house and land; But God have mercy on my soul, For I am haunted night and day By all the deeds I have not done; O contaminated conscience! O costly valor never won!—Marguerite Wilkinson.

Brilliant English Pantomime

Return Engagement Announced Of Great Pantomime Players In Entirely New Production

Philip Rodway's brilliant English Pantomime company returns to the Grand Theatre, Regina, for three days, commencing Thursday, December 9th, and Walker Theatre, Winnipeg, for week commencing December 9th, in "Mother Goose," with an entire change of costumes, scenery, effects and subject matter. The company sailed triumphantly across Canada with "Humpty Dumpty," meeting with success that will be equaled by any other production this season. It returns with a great extravaganza that is regarded by many competent critics as better than "Humpty Dumpty," and in fact, as the finest of all English pantomimes.

Dan Leno, Jr., the famous eccentric comedian, as Mother Goose, and "Wee Georgie" Wood, the world-famous boy impersonator, as her son are a whole show in themselves in the new pantomime. Florence Hunter is again enjoying a prominent part, and of course, Fred Conquest as Priscilla, the Goose that lays the golden eggs, is his own inimitable self in a role that he seems to enjoy more than ever. Mr. Rodway's version of the fairy tale is written to allow of great deal of scenic variety, and the gorgeous effects introduced are beyond description. New costumes, new comedy, new songs, and dances are provided in abundance, and "Mother Goose" is certain to be another big success of the season.

## SUNDAY SCHOOL LESSON

DECEMBER 8

## HELPING NEIGHBORS IN NEED

Golden Text: "Thou shalt love thy neighbor as thyself."—Leviticus 19:18. Lesson: Matthew 25:31-46; Luke 10:25-37; James 1:27; 2:14-17. Devotional Reading: Luke 6:27-36.

Explanations and Comments

Service For Others Is Service For Christ, verses 34-40.—To those on His right hand the Judge will say, "Come ye blessed of My Father, inherit the Kingdom prepared for you from the foundation of the world."

"The thought of God from the beginning looked towards those who by such conduct would inherit such reward."—R. H. Horton.

For I was hungry, and ye gave Me to eat; I was thirsty, and ye gave Me to drink; I was a stranger, and ye took Me in (I was herodorous—barbered—naked (poorly clad), and ye clothed Me; I was sick, and ye visited Me; I was in prison, and ye came unto Me.

The righteous are sincerely humble, and they ask when it was that they did these things. The King will say, "Wordsworth speaks of the little, nameless, unremembered acts of kindness and of love that make up the portion of a good man's life. The acts of kindness were forgotten just because they were instinctive. But Jesus emphasized the point, they are decisive; they come, as another of His telling phrases suggests, from the overflow of the heart; and they reveal it."—J. R. Glover.

The Fate Of Those Who Fail To Serve Christ By Serving Others, verses 41-46.—To those on His left hand, the unrighteous, the King will say, "Depart from Me, ye cursed, into the eternal fire, which is prepared for the devil and his angels. ## Canada To Import

British West Indies Fruits

Fifteen Thousand Crates Of Oranges From Dominica To Come Next Year

"We expect to ship from ten to fifteen thousand crates of Dominica oranges into the Maritime and Montreal markets next year," declared Captain A. D. Robertson, of Dominica, B.W.I., who arrived at Saint John on the R.M.S. Lady Nelson, of the Canadian National Steamships, from the West Indies.

Captain Robertson, who took up the cultivation of oranges and grapefruit at Dominica as a hobby after the war, stated that there were excellent possibilities for the cultivation of citrus fruit on the Island of Dominica, and he said that at the Manchester Exhibition, the Dominica oranges and grapefruit captured first place over the California product. Eighty per cent. of his product consists of Washington navel, all grafted on sour orange stock. A unique feature of the Dominica citrus fruit industry was that on his estate he discovered several trees of Valencia, which had no seeds. He visualized great possibilities for the industry, which, in his opinion should result in Canadians obtaining their oranges and grapefruit at a lower price.

The backwardness of the development of the citrus fruit industry in Dominica, Captain Robertson stated, was due to the lack of adequate steamship services, but with the advent of the Canadian National Steamships, the industry was enabled to develop. He has associated with him in his enterprise, Mr. J. E. Knowlton, who accompanied him on his trip. The climate of Dominica, Captain Robertson declared, was delightful, with an average temperature of 75 degrees.

Captain Robertson was associated with the Gordons during the war, serving on the Bulgarian and Western Fronts.

Naturalists Find Large Worms

Specimens Discovered In Australia Six Feet Long

Earthworms longer than a man and an inch in diameter are reported in the British scientific magazine "Nature" as the quarry of a naturalist's hunt in southeastern Australia. Average specimens range from four to six feet in length, and one nine feet long was observed by Charles Barrett, member of the expedition. An extreme length of eleven feet was reported though not seen on this expedition.

The worms make loud gurgling noises when they retire into their burrows on the approach of a possible enemy. Their greenish-translucent eggs have tough, horny shells, and are from two to three inches in length.

Applicant: "And if I take the job am I to get a raise in salary every year?"

Employer: "Yes, provided, of course, that your work is satisfactory."

Applicant: "Ah, I thought there was a catch in it somewhere."

WINDOLITE

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding those vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, embodied for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

## Fewer Forest Fires

Loss in Canada Last Summer Was Comparatively Low

Loss of timber by forest fires in the past summer was comparatively low. Up to the end of September, British Columbia had 2,013 outbreaks, and of these half had been in the southern interior where the hazard for some time has been extreme. In the prairie provinces the area burned has been high, and it is feared that the losses will be found to be serious. In Ontario the amount of the commercial timber burned is reported as surprisingly low, that is, in the fire districts which have been within the limit of possible protection, not including northwestern Ontario. In Quebec, the fire losses are probably below normal. In the Maritimes, where the hazard has been higher than in many years, the losses again are comparatively low.

The Scientific Fisherman

Carries Thermometer When Going After Certain Kinds of Fish

The fisherman of today writes "Looker-On" in the London Daily Chronicle, is something of a scientist when compared with his prototype of a few decades ago, for he now carries a thermometer when going to fish. It has been proved that certain fish frequent waters of a particular temperature, hence if the nature of the water is known preparations can be made most suited to the kind of catch that is expected. Cod, for example, have a preference for water of 62 degrees, and from near the coasts of Newfoundland and Labrador, where the water of this temperature, enormous quantities of these fish have been caught.

A new and hitherto unknown route across the Rocky Mountains has been discovered through a pass into British Columbia over the western boundary of Jasper Park, Alberta.

Peanuts are used in the manufacture of several varieties of wood stains.

The number of life insurance policies in force in Canada is 7,000,000 in round figures, or about three for every family in the Dominion. An encouraging fact about life insurance in Canada is that no one has ever lost a cent as a result of the failure of a Canadian life insurance company, which is principally due to the supervision of the Canadian Government Department of Insurance over the companies for the protection of policy holders.

The \$300,000,000 is paid annually by the people to Canada life insurance premiums. In the past 10 years the number of policies carried has doubled and the assets of the Canadian life insurance companies is placed at \$1,205,000,000.

A new and hitherto unknown route across the Rocky Mountains has been discovered through a pass into British Columbia over the western boundary of Jasper Park, Alberta.

Peanuts are used in the manufacture of several varieties of wood stains.

The number of life insurance policies in force in Canada is 7,000,000 in round figures, or about three for every family in the Dominion. An encouraging fact about life insurance in Canada is that no one has ever lost a cent as a result of the failure of a Canadian life insurance company, which is principally due to the supervision of the Canadian Government Department of Insurance over the companies for the protection of policy holders.

The \$300,000,000 is paid annually by the people to Canada life insurance premiums. In the past 10 years the number of policies carried has doubled and the assets of the Canadian life insurance companies is placed at \$1,205,000,000.

Increase In  
Life Insurance

\$650 In Insurance For Every Man, Woman and Child in the Dominion

The total amount of life insurance carried by the people of Canada is at present about \$6,500,000,000 or approximately \$850 for every man, woman and child in the Dominion. The United States with \$750 per head of population is the only country in the world that exceeds Canada in the amount of life insurance carried.

## Personal and Local

Buy your Christmas presents from local stores. Be sure and see their stocks as early as possible.

Extensive alterations are being made at the Coleman hotel, and the cafe is also being renovated.

Mr. and Mrs. Dibble, accompanied by Miss Bessie Dunlop and Miss Olga Hole, motored to Calgary on Saturday for the week-end.

Mrs. Frank Barringham is making progress from her recent illness, and her many friends hope to soon see her around.

John Salvador recently returned from the vicinity of Kootenay Lake, where he had a contract on road construction for the B. C. government.

Roland Crayford was in town for a short time this week. He apparently did not stay very long. Possibly the quiet atmosphere prevailing did not induce him to remain.

Ensure Prosperity and a Merry Christmas throughout Canada by buying Canadian made Christmas gifts.

Mrs. Wm. Antle and young son spent a few days visiting Mr. and Mrs. Harry Antle, having come in from North Fork, where Mr. Antle is forest ranger.

"Tip-toe Through the Tulips" has been a popular air during the past week. It is reported that Nick Lucas, the star singer in "Gold-Diggers of Broadway," was once a resident of Michel.

Mrs. H. McLeod recently left to reside at Mercara, where Mr. McLeod is manager of the mine. Having resided here for many years, various farewell parties were held in her honor prior to leaving.

It is reported that arrangements will be made to keep the roads open during the winter throughout the Pass by means of a snow plow, according to Walter Scott, secretary of Blairmore Board of Trade.

In Crownest Cleaners & Dyers advert. last week it stated "Garments Repaired, Re-cleaned and Altered." It should have been Re-lined. Mr. Bercof, the manager, states that anything they clean does not need re-cleaning. Which reminds one of the man who said he had a clock which went for eight days without winding, but he could not say how long it would go with winding.

Work is proceeding on the basement of the town hall. In the meantime Secretary Ford is having a lively time trying to keep the dust down in his office. There is one man who will appreciate a furnace being installed.

The Boy Scouts, or some of them, hiked to the lake on Sunday, and through the courtesy of Mr. Graham were allowed to use his cottage where they had lunch. Weekly meetings are held at St. Alban's parish hall on Wednesday from 7 to 9.

A United States newspaper recently stated that a start had been made in some schools of teaching children to write with typewriters, and so adept were they becoming that they were doing their arithmetic sums on the machine instead of handwriting. This is a move in the right direction. The time that is wasted and tempers ruffled by trying to decipher people's horrid hand-writing, as well as the errors that occur through illegibility, emphasize the need of more adults learning to use a typewriter.

For First-Class Work and Quick Delivery, send your HEMSTITCHING to Barton's Music & Sewing Machine Store, Fernie, B.C.
